

## **Full-Disclaimer for ‘Put the Fizz into Science’.**

### **Important please read!**

The Mentos Fountain experiment must be performed outdoors in a large open space, in the presence of an adult of at least 18 years of age, with appropriate safety equipment worn and with the permission of the landowner. The other experiments must be performed with appropriate safety equipment worn, in a school classroom and under supervision and with permission of the teacher. Mentos and National Schools Partnership accepts no responsibility for accidents, injury or damage to person or property caused by performing these experiments without precisely following our instructions and we shall not be liable for any losses or damages (consequential or otherwise) caused by incorrectly performing these experiments. Nothing in this disclaimer excludes or limits our liability for death or personal injury caused by our negligence, fraud or fraudulent misrepresentation.

Please make sure that:

- (a)** you obtain permission from the landowner to perform the experiment on their land
- (b)** you ensure there is a large open space where no property can be damaged or destroyed
- (c)** each person present must wear goggles covering their eyes
- (d)** each person present must wear protective waterproof clothing to ensure their clothes do not get sprayed by the fountain
- (e)** at least one responsible adult over 18 years of age must be present to supervise the experiment
- (f)** Do not drink any liquids or eat any Mentos/raisins used in the experiments.
